

### Senior Quality Engineer

Bosch Rexroth is actively seeking a **Senior Quality Engineer** for their **Fountain Inn, SC** facility. Bosch Rexroth is one of the world's leading specialists in the field of drive and control technologies. Under the brand name of Rexroth the company supplies more than 500,000 customers with tailored solutions for driving, controlling and moving.

#### PRINCIPAL RESPONSIBILITIES:

- Provide quality support in machining and assembly areas in process improvements and daily issues through managing a team of salary and hourly employees.
- Champion Quality concerns and provide systemic and robust solutions.
- Assess process control requirements based upon ISO and Customer standards.
- Assist in external and internal ISO/TS/Customer audits and champion systemic and robust solutions.
- Development and maintenance of APQP/PPAP and Process Documentation including process flowcharts, PFMEAS and control plans, operator instructions, gage and equipment capability reporting, test, paint and shipping requirements.
- Champion team development in process improvements.
- Establish, maintain and improve customer quality metrics.

#### **Requirements**

#### EDUCATION AND EXPERIENCE:

- Prior Supervisory experience required
- 4-year technical degree, BSME preferred
- Minimum 5-10 years practical experience in assembly and machining quality
- Practical problem solving/troubleshooting in a manufacturing environment
- Working knowledge of gage and equipment requirements to AIAG standards.
- Practical knowledge of SPC
- Preferred but not required: Six Sigma Blackbelt or Greenbelt, experience with Hydraulic product manufacturing, experience with SAP business systems and written/verbal fluency in the German language.

**If you meet the requirements and are interested in applying for this position, please send your resume to [sgalvan@htijobs.com](mailto:sgalvan@htijobs.com)**
